Hotel Childcare Survey - Kent County

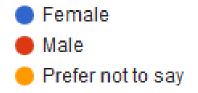

How are hotel leaders dealing with staff who might have to stay home due to online school? As a mom, a hotel leader and a member of this hospitality community I want to put our collective minds together to come up with some real solutions to approach this very big problem so many of us are facing. This is 100% anonymous and your information will be helpful in guiding other hotel leaders as they navigate this serious problem facing our industry.

Hotel Position

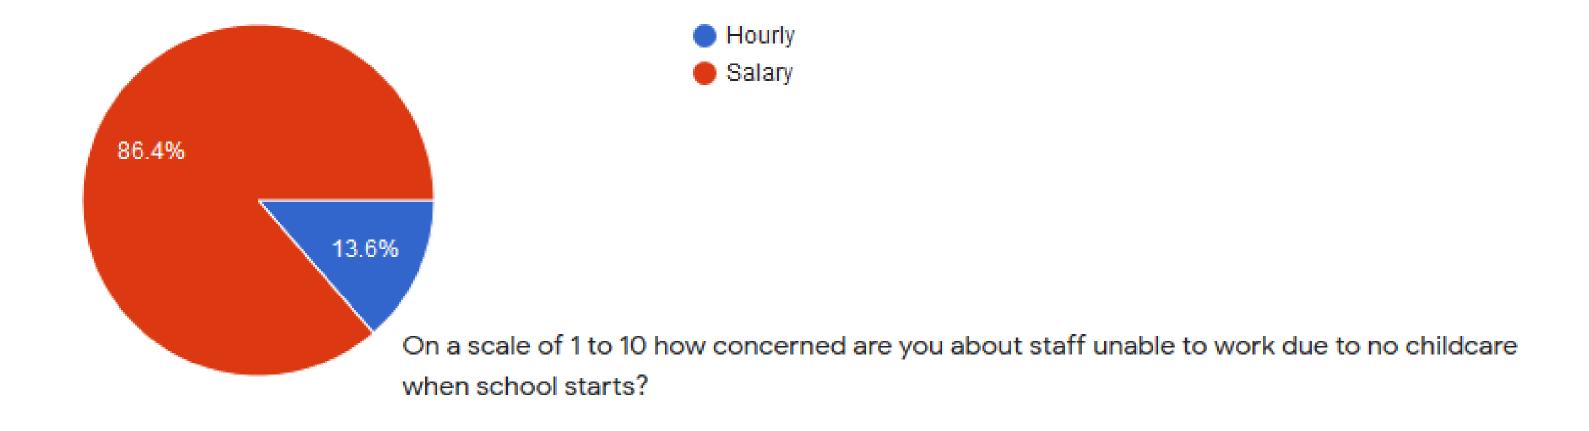

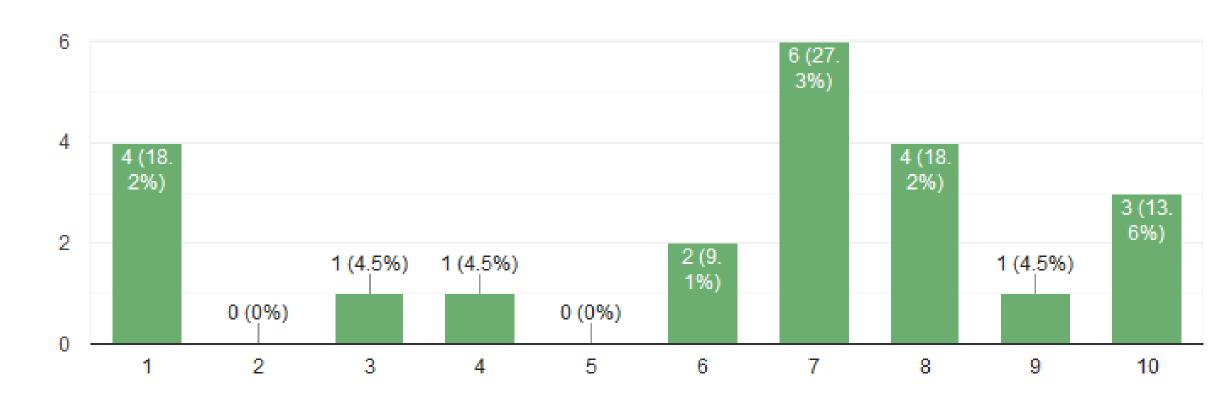

Gender

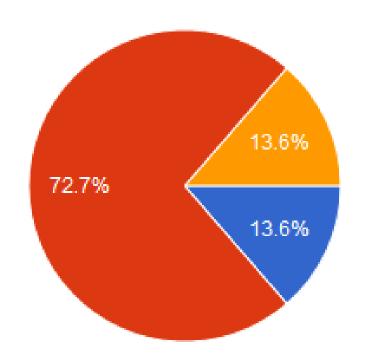

Are you an hourly or salary manger at your hotel?

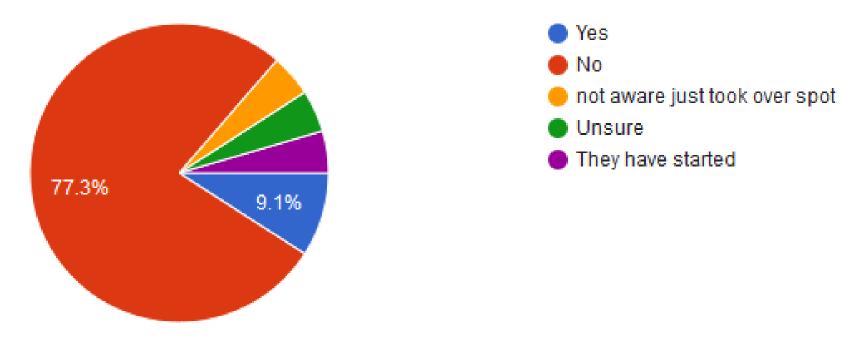

Have you spoken with your ownership/management company about potential childcare issues when school starts with your staff?

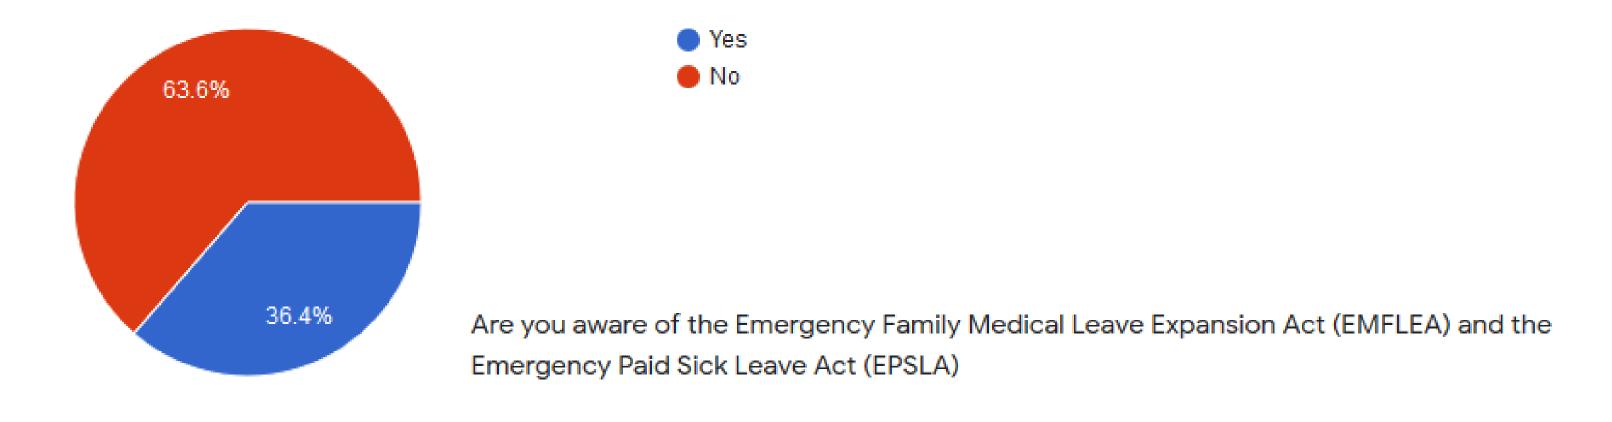

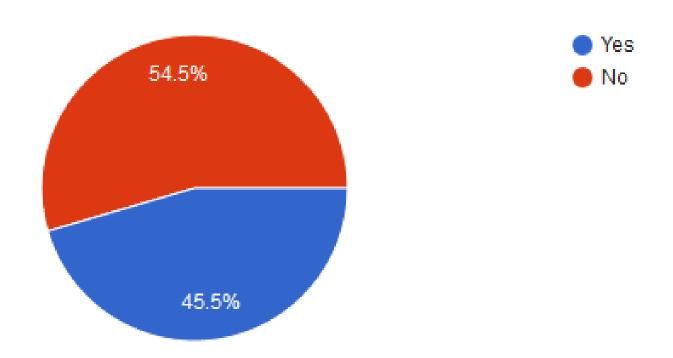

Has your ownership or management company communicated with your hotel about options for employees who might need to stay home and care of children due to virtual learning?

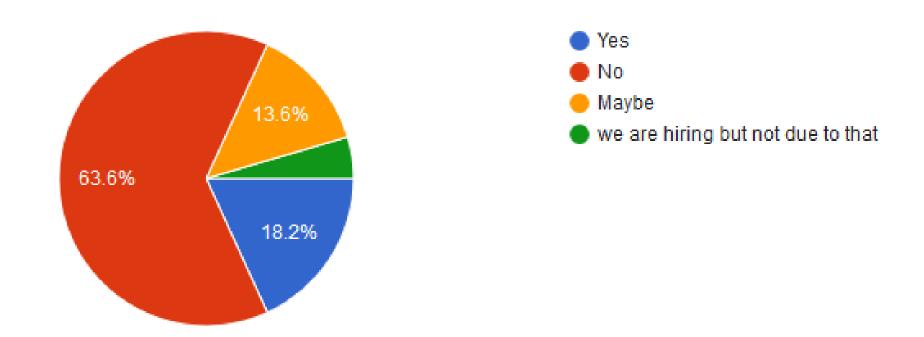

Are you aware of the Families First Coronavirus Response Act?

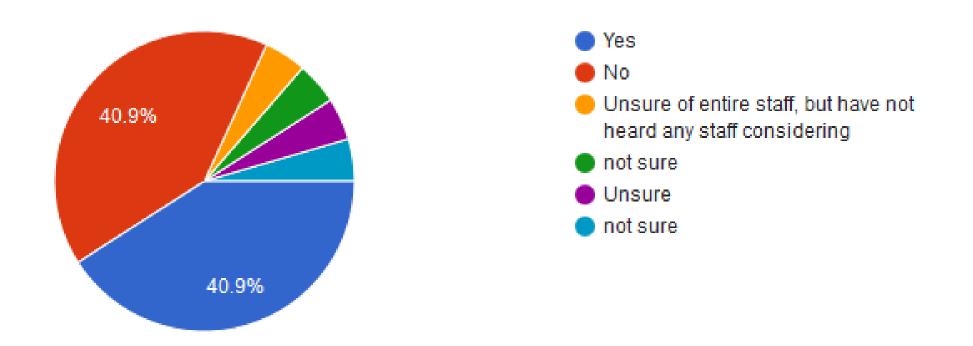

Is your hotel actively hiring in anticipation some staff members could leave due to childcare challenges when school starts?

22 responses

Have you or anyone on your staff considered leaving their job to stay home and facilitate virtual learning? care for school age children?

NA Very worried about finding staff to cover only issue I think is the hotel internet not that strong so if people are deciding to travel with the kids that need to do school work on laptop it not gonna handle that burden on the staff member financially due to not being able to work is my main concern No additional concerns No thoughts on this at this time. We have talked about this with our staff. We are willing do our best to accommodate the team when it comes to this matter. Additionally, we have concern over what happens if our college students who work the front desk get quarantined at school for up to 1/4 days and can't come to work. Are other hotels concerned about their college age staff? Idon't know if employees will quit, or just ask to work more weekends. That could work in the favor of managers, who are mit have more difficulty covering weekends. Childcare in 60 before Covid was an issue with an 18 month waitlist at some locations downtown. Even with Covid cancelling out some of the waitlist, they still exist. We had to hire an in home nanny to accommodate. Thunks		
Very worried about finding staff to cover only issue it think is the hotel internet not that strong so if people are deciding to travel with the kidds that need to do school work on laptop it not gonna handle that burden on the staff member financially due to not being able to work is my main concern No additional concerns No thoughts on this at this time. We have talked about this with our staff. We are willing do our best to accommodate the team when it comes to this matter. Additionally, we have concern over what happens if our college students who work the front desk get quarantined at school for up to 14 days and cen't come to work. Are other hotels concerned about their college age staff? I don't know if employees will quit, or just ask to work more weekends. That could work in the favor of managers, who seem to have more difficulty covering weekends. Childcare in GR before Covid was an issue with an 18 month waitlist at some locations downtown. Even with covid cancelling out some of the waitlist, they still exist. We had to hire an in home namy to accommodate. Please share any additional thoughts, comments, concerns specifically regarding the concern staff not being able to work due to no childcare if children must be home to attend virtual school. Additionally, we have concern over what happens if our college students who work the front desk get quarantined at school for up to 14 days and cen't come to work. Are other hotels concerned about their college age staff? I don't know if employees will quit, or just ask to work more weekends. That could work in the favor of managers, who seem to have more difficulty covering weekends. Uncertain of what my game plan is It is all going to fall on the poor GM. Thanks	N/A	specifically regarding the concern staff not being able to work due to no childcare if children must be home to

n/a It is all going to fall on the poor GM. Thanks	with Covid cancelling out some of the waitlist, they still exist. We had to hire an in home nanny to	Uncertain of what my game plan is
Thanks		n/a
		It is all going to fall on the poor GM.
		Thanks
If our associates need to stay home, we will need to hire other workers. We would like to keep our current team together.		If our associates need to stay home, we will need to hire other workers. We would like to keep our current team together.
